PriorityPak®

The **PriorityPak®** system encapsulates your products in a Cold Seal® cohesive-coated protective package that locks and seals products in place to minimize shifting inside the package; providing superior product protection from the rigors of shipping and handling.

Equipment

Material Choices

PriorityWrap® Bubble Laminate

- Strong and versatile material ideal for products requiring both surface protection and cushioning.
- It is best for lightweight items such as cosmetics, pharmaceuticals, CDs and DVDs.

PriorityWrap® Rigid Board

- Patented XRS™ technology creates a crescent seal that suspends items in the center of the package minimizing product movement while providing additional corner protection.
- Ideal for items requiring increased rigidity, corner, edge and surface protection including books, calendars and photographs.

PriorityWrap® Film / Paper Laminate

- Provides a durable co-extruded film layer on the outside, and a tough kraft layer on the interior.
- Perfect for packaging lightweight products and soft goods, like apparel.

Padded Mailers
